In the last 3 months I practiced my skills working for a startup trading company, helping senior developers with unit testing and small frontend tasks.

MOST RELEVANT WORK EXPERIENCE

Junior frontend developer

June 2021- present

Self-employed

- I have developed several React-based **projects** including a **Calculator app** that performs basic and intermediate arithmetic expressions. **Feed the Cat app** tracks cat food intake and set alerts for extra servings, **Password Generator** creates secure passwords with custom length and character type, **Dice game** for two players with a goal of reaching 20 points by rolling a virtual dice.
- In each project, I utilised React components, hooks, props, and event handling, along with routing and data persistence to create a user-friendly experience. Additionally, I utilised CSS, HTML, and UI/UX design to ensure a responsive interface. I am well-versed in Javascript concepts as OOP, arrays, loops, functions, objects, map, etc.
- I had the opportunity to **assisted senior developers** with unit testing and small features for a trading app. Experienced in using Jira, GitHub and deploying React apps to production using Firebase.

Dedicated to improving skills and staying current with tech. Seeking a challenging and dynamic work environment.

Skills: React, Javascript, HTML, CSS, UI/UX, TypeScript, GitHub, Firebase, attention to details, problem solving, critical thinking.
